Join us for an unforgettable Night Sky Safari! Lose yourself in a laser pointer tour of the stars and constellations with a focus on cultural starlore and mythology from various civilisations around the world. Learn how to recognise constellations and navigate by the stars. You will also enjoy spectacular views of glittering deep sky objects through our fleet of professional GPS aligned telescopes, while our photographic telescope will reveal live views of gigantic hidden structures and colours of the cosmos. Journey light years in the past and experience the ultimate connection to the heavens!
