WOLVESBandit and BonnoxMeet Bandit and Bonnox. These two gorgeous wolves are Tundra Wolves. They will be protecting your property at Raptor’s View Dullstroom.These two beauts were rescued by Frith and Magdali and were given a new lease on life. They are gentle and harmless. Please feel reassured, their enclosure is separate to your area and your dogs will not be able to see them unless you go for a walk behind the property.Listening to their hauntingly beautiful howling at night is something magical to experience. Please do not feed the wolves. Magdali and Frith feed Bandit and Bonnox and come and check on them daily
